Glyphosate and / or GPL 172 Environmental Toxin

2023 Dates: 10/18/23

2024 Dates: 5/15/24 & 10/16/24 (prices subject to change)

Glyphosate \$145.00 or GPL Toxin \$345.00- BOTH Tests at the same time: \$445.00 (\$45.00 savings)

1. What is Glyphosate? An herbicide that has serious health risks and symptoms associated with it.
2. What is GPL 172 Environmental Toxin Testing? A variety of herbicide, pesticide, food and other contaminants and toxins that affect long term body and brain health and disease risk.
3. How are the samples collected? One AM urine collection in a plastic cup.
4. Toxin levels can affect your risk of disease, cognitive functioning and many other symptoms.
5. Who should do the testing? Anyone with high risk of cancer or currently has cancer. Anyone over 50 years old for a screening. People and children experiencing a variety of unexplained symptoms: body and tissue pain and aches, high inflammatory marker or inflammation, skin issues and mental health issues.
6. Prevention and detection and then removal of toxins is vital. After you get your results, you will receive a video and handouts that help you understand the exposures and reason to rid your body of any toxic levels.
7. Participants will need to call our office @ 850-227-7931 or e-mail NCB: ncbteam@nutritionconnectionbalance.com to provide demographic information and credit card information to register for the workshop and receive the testing kit **at least 5-6 weeks or more before the workshop date so their personal results will be back in time for the clinic date.**

8. **You will receive an email with handouts, a recorded webinar from NCB clinician and your individual results and goals between 11 am – 5 pm on the testing clinic date or sooner.**

9. The **\$145.00, \$345.00 OR \$445.00 registration fee** is due when you call the office for the kit or pay on our website. This includes a copy of your results by e-mail and an information sheet, a therapy handout and recorded group webinar recording that is good for 30 days from the clinic date.

10. For urine testing, just collect your first urine sample upon waking for the day.

It's takes approximately 3-4 weeks or MORE for the results to come back due to mail unreliability! Be sure the lab receives your sample no later than 5-6 weeks before your clinic date!

There are no cancellations or refunds for any reason, and you can NOT move to another testing clinic or send in an old kit. Purchasing a kit for this clinic means it must be sent in for this clinic.

11. **Important:** The therapies (supplements, foods and powders) at Nutrition, Connection, Balance (NCB) are used and brought in through my verification and food science degree. MOST importantly, they have shown clinical effectiveness with thousands of our NCB clients; therefore, if you do have issues with your levels or your body is unresponsive to something, we know that it is not the supplement but that your body needs a different dose or therapy to achieve balance. We **STRONGLY** advise you to order any recommended over the counter supplements directly from Nutrition Connection Balance/NCB at 850-227-7931 or e-mail your order ncbteam@nutritionconnectionbalance.com after the results session for your individualized deficiencies and imbalances. A NEW updated of "Supplement Guideline" sheet has been included with your e-mailed individual test results. Please review the handout and the recorded lecture on www.nutritionconnectionbalance.com under "education" about "The Right Supplements".

12. If you are interested in Juice Plus+ (fruits, vegetables, berries and/or omegas), Complete or Perform shakes, and Tower Garden, please call or email NCB.

13. Please visit our website **www.NutritionConnectionBalance.com** for more information about **NCB, upcoming events and clinics and testing services. Under "education" there are many medical valuable presentations on many health topics!**
